The Listener's version of can be saved to the listener's hard disk. A NanoGong activity allows the student to submit their recording to the teacher.	Contributed	R		
Activity	NLN Activity	Allows NLN Learning Objects to be added directly into a Moodle course with minimal effort.	Contributed			
Activity	OU Blog	The OU Blog is an alternative blog system for Moodle. It can be used in place of, or in addition to, the standard Moodle blog system.	Contributed	R		
Activity	OU Wiki	The OU Wiki provides a wiki based activity for users to work together in a group.	Contributed	R		
Activity	Questionnaire	The Questionnaire module has been reintroduced to Moodle after an absence in Moodle 2. The module allows teachers to create surveys within the Course.	Contributed	R		

R: Can request through the service desk  
P: Requires additional support agreement  
S: Standard

Note: Some clients may have features or customisations not currently in this matrix. These will not be removed from your site(s) but will likely be evaluated upon an upgrade request.

## University of London Computer Centre Moodle Plugin Matrix

Type	Plugin	Description	Source	Support	2.4	2.6
Activity	Respondus	The Respondus module allows users to import files into Moodle from Respondus which have been saved in the IMS QTI format.	Third Party	R		
Activity	Scheduler	The Scheduler module helps you to schedule appointments with learners.	Contributed	R		
Activity	Subpage	Subpage module allows you to add Moodle activities onto inner page within course * <b>OU is discontinuing in 2.8</b>	Contributed	R		
Activity	Tab Display	The tab display module allows you to setup your information in a tabbed format. This helps to clean up your course by combining several resources into Tabs.	Contributed	R		
Activity	Turnitin Basic	The Turnitin Basic module allows for assignments in Moodle with the basic suite of Turnitin features including similarity reports and grade marking.	Third Party	R		
Activity	Turnitin Direct	The Turnitin direct module allows for assignments in Moodle with the full suite of Turnitin features including Grade Mark and similarity reports.	Third Party	R		
Assignment	Online Audio	Audio recorder (Flash 10.1+) submission method. Records locally and uploads via HTTP POST, so there's no need for a streaming server!	Contributed	R		
Block	Accessibility	The accessibility Block allows for users to customise Moodle to their visual needs. It supports changing of text sizes and colour schemes.	Contributed	R		 Theme Contraints

R: Can request through the service desk  
P: Requires additional support agreement  
S: Standard

Note: Some clients may have features or customisations not currently in this matrix. These will not be removed from your site(s) but will likely be evaluated upon an upgrade request.

## University of London Computer Centre Moodle Plugin Matrix

Type	Plugin	Description	Source	Support	2.4	2.6
Block	Course Contents	Course contents block produces a table of contents for the course - that is a list of all visible sections (topics or weeks) in the course. Clicking at one of these links will display that particular section.	Contributed	R		
Block	Course Overview on Campus	Moodle block which provides all functionality of block_course_overview, provides additional filters (course category, course term and course teachers) to be used on university campuses as well as the possibility to hide courses and course news from the course list.	Contributed	R		
Block	Course Tree List	This block will display all courses a user is enrolled in, within the hierarchy course categories listing	Contributed	R		
Block	Echo360	The Echo360 Block allows for displaying of Echo360 lecture capture within Moodle.	Third Party	R		
Block	Evasys	The Evasys Block allows integration with the Evasys online surveys system.	Third Party	R		
Block	Formal Languages	Formal languages block centralizes code for scanning and parsing of different languages. For now it is used by Preg and CorrectWriting question types, but other plugins can use it as well.	Contributed	R		
Block	ILP (Community)	The ILP Block allows the creation of individual learning plans to help provide learners with the opportunity to manage and track their own progress. It also includes the ability to integrate information from other systems.	Contributed (ULCC maintained)	R		

R: Can request through the service desk  
P: Requires additional support agreement  
S: Standard

Note: Some clients may have features or customisations not currently in this matrix. These will not be removed from your site(s) but will likely be evaluated upon an upgrade request.

## University of London Computer Centre Moodle Plugin Matrix

Type	Plugin	Description	Source	Support	2.4	2.6
Block	ILP (Supported)	The supported ILP block offers ULCC support and guidance, integration, implementation and any development requests (at cost) on top of the community release. The supported release is usually two versions ahead of the community release and inclusive of new functionality developed.	ULCC Maintained	P		
Block	Mass Action	This block allows the mass deletion, indentation, hiding and showing of activities and resources within sections on a particular Moodle Course.	Contributed	R		
Block	Moodletxt	The Moodletxt block allows teachers and administrators to SMS/text students from within Moodle.	Third Party	R		
Block	MRBS	Based on the stand-alone MRBS project ( <a href="http://mrbs.sourceforge.net">http://mrbs.sourceforge.net</a> ), this allows users to book rooms and other resources from within Moodle.	Contributed	R		
Block	Panopto	The Panopto block allows users to view live and recorded videos from Panopto, within a Moodle course. It also provides a single sign on between the two solutions.	Third Party	R		
Block	Progress Bar	The Progress Bar is a time-management tool for students. It visually shows what activities/resources a student is supposed to interact with in a course.	Contributed	R		

R: Can request through the service desk  
P: Requires additional support agreement  
S: Standard

Note: Some clients may have features or customisations not currently in this matrix. These will not be removed from your site(s) but will likely be evaluated upon an upgrade request.

## University of London Computer Centre Moodle Plugin Matrix

Type	Plugin	Description	Source	Support	2.4	2.6
Block	Talis Aspire	This block integrates Talis Aspire with Moodle, where it will display resource list links from Talis Aspire for a given course.	Third Party	R		
Block	Quickmail	Quickmail is a block that provides selective, bulk emailing within courses.	Contributed	R		 Patched
Block	QuickScan Dyslexia Screening	The block provides a link to a page containing an explanation of the QuickScan Dyslexia Screening assessment, and a button which redirects the student to the Pico web service in a popup window to perform the assessment itself.  You would need to register with Pico to enable the QuickScan service for your organisation.	Third Party	R		
Block	Reports Dashboard	The aim of the reports dashboard is to provide a framework within which bespoke reports can be quickly constructed and presented within a standard "dashboard" which is in turn accessed via a block.  In addition to the main dashboard of reports, this block also allows access (given the correct capability) to a control panel which contains various settings which are used by one or more of the reports.	ULCC	R		
Block	Sharing Cart	The Sharing Cart is a block that enables sharing of Moodle content (resources, activities) between multiple courses on your site.	Contributed	R		

R: Can request through the service desk  
P: Requires additional support agreement  
S: Standard

Note: Some clients may have features or customisations not currently in this matrix. These will not be removed from your site(s) but will likely be evaluated upon an upgrade request.

## University of London Computer Centre Moodle Plugin Matrix

Type	Plugin	Description	Source	Support	2.4	2.6
Block	Side Bar	Allows the functionality of the Site main menu block to work within courses.	Contributed	R		
Block	Slideshow	A block that inserts a slideshow in the header of the front page or course page. Features include customizable background colours, transition types, speeds, and size.	Contributed	R		
Block	ULCC Administration	Provides a set of tools for Admins (course, category uploads & Statistics)	ULCC	R		
Course Format	Collapsed Topics	Topic based course format with an individual 'toggle' for each topic / week except the Summary.	Contributed	R		
Course Format	Collapsed Weeks	Week based course format with an individual 'toggle' for each week except the Summary. The current week is always shown.	Contributed	R		
Course Format	Flex Sections	Organises course content in any number of sections that can be nested. Each section can be displayed expanded or collapsed	Contributed	R		
Course Format	Grid	A course format which hides all topic areas and creates a grid of icons with titles. You can click on the icons to bring up content in a light box display.	Contributed	R		
Grading	BTEC Grading Form	This is a grading form module which allows for the BTEC marking scheme to be incorporated into assignments.	Contributed	P		

R: Can request through the service desk  
P: Requires additional support agreement  
S: Standard

Note: Some clients may have features or customisations not currently in this matrix. These will not be removed from your site(s) but will likely be evaluated upon an upgrade request.

## University of London Computer Centre Moodle Plugin Matrix

Type	Plugin	Description	Source	Support	2.4	2.6
Integrations	Auto Enrol	Adds functionality to automatically enrol users onto a course, either as they log into your Moodle site or as they access a course. This plugin is primarily intended for use on courses which you want all users to be able to access but can also be configured for more advanced purposes.	Contributed	P		
Integrations	Database Extended	The external database extended integration, allows for management information system data to be used within Moodle including, course creations, category creations and enrolment synchronisations.	ULCC Maintained	P		
Integrations	Db userrel	This plugin allows you to configure automatic synchronisation of relationships between users from an external database. It is mainly used to assign Parent/Mentor rôle.	Contributed	P		
Integration	ULCC Shared secret SSO	This plugin allows users to login to Moodle using a single sign on	Contributed	P		
Local	Analytics	A local Moodle Module adding Analytics. This plugin currently supports 3 Analytics modes, Piwik, Google Universal Analytics and Google Legacy Analytics.	Contributed	R		
Local	Anonymous posting in forums	Local plugin for allowing anonymous posting in forums.	Contributed	R
